Goodness in Cold Cream

Means a pure vegetable product. A cream that is prone to become rancid. A pleasant odor that lasts as long as the cream itself. Smoothness—no lumps, no grittiness. All these are characteristic of our White Rose Cold Cream.

OF LOCAL INTEREST

A PRESCOTT VISITOR.—Charles Hinderer of Prescott was a business visitor here yesterday.

FLAGSTAFF VISITORS.—E. B. Newman and A. H. Bursley of Flagstaff were here yesterday on a business mission.

TO FRISCO.—Mrs. Charles Lane, who has been visiting her aunt, Mrs. Henshaw, left yesterday for San Francisco.

FROM QUARTZSITE.—A. W. Adams and H. H. Lohn of Quartzsite were in the city yesterday on mining business and registered at the Hotel Adams.

COMING TOMORROW.—R. H. Greene, of the Greene & Griffin real estate and investment company, who has been spending the summer on the coast, is expected home tomorrow morning.

CIRCUS CAR.—The second advertising car of the Barnum and Bailey's Biggest Show on Earth arrived in the city yesterday to bill the town and country. There was a crew of twelve men registered at the Ford Hotel.

DISTRICT COURT.—Yesterday was the time to which district court had been adjourned and yesterday morning it was opened by Court Commissioner Johnston. It was then adjourned again until October 1, by which time Judge Kent will have returned.

CAR FROM GLOBE.—General Agent L. H. Landis announced yesterday that during fair week the Southern Pacific would run a through car from Globe each day to Phoenix, and reports are to the effect that a large number of Globeites will take advantage of the convenient arrangements offered for travel. The rate is one and one-half fare, \$9.40 for the round trip.

THE GARDEN LEMON.—A. W. Miller, who came here from Kentucky last spring, has introduced a new kind of fruit which is destined to be much in demand. It is called the garden lemon on account of its resemblance to the lemon in size, shape and color. It is though a kind of melon. Mr. Miller was not sure that it would thrive in this climate but it has done so admirably in a garden on the Leander Utley place northeast of the city. The garden lemon makes an excellent preserve, being for that purpose far superior to citron on account of its taste and flavor.

A GROWING POPULATION.—Another line on the rapidly with which Arizona is settling up is secured through the operations of the land office. In the regular annual appropriation made for the surveying and resurveying of public lands, an allotment of \$20,000 was made to Arizona. This became available about three months ago and since that time a sufficient number of surveys have been ordered to almost exhaust this appropriation. It is believed that at least another \$10,000 will be allotted to Arizona to space out the other nine months with. The chief interest in the news item lies in the fact that a survey of any particular township may be ordered only on the application of three or more settlers. As a sufficient number of settlers have applied for surveys to exhaust a fund designed to run a year, it is very evident the work of home-building on the public lands is going ahead much faster than ever before.

A BLUFF AT SUICIDE.—Frank Callahan, an inmate of the county jail went through the motion of hanging himself yesterday morning. Callahan is awaiting the action of the grand jury, having been held by the justice of the peace at Mesa on the charge of shooting at a man with intent to kill. Callahan has been acting strange for several days and yesterday other prisoners noticed him kneeling in his cell with a handkerchief around his throat. He had taken a piece of rope and fastened it to the bars near the top of his cell. The rope itself was not long enough for hanging purposes, but Callahan had made a loop in the lower end of it and in this he had fastened his handkerchief. If he had really intended suicide his effort could not have been successful even if he had not been disturbed, for the rope was so rotten that it would not have borne his weight. Beside among thirty-two prisoners who in the day-time have access to every cell, one could never find time to choke to death.

THE TWO BRAVEST GIRLS IN THE WORLD

The La Roque sisters, mere girls, are proving themselves the bravest in the world by their daring and dangerous double automobile somersault act, which is this year's feature with the Barnum and Bailey Greatest Show on Earth. It is the first instance in which two autos have been used in one act. The machines, while plunging through space, turn completely over in mid-air.
